Basis for Conclusions

This Basis for Conclusions accompanies, but is not part of, IPSAS 19.

Revision of IPSAS 19 as a result of Part II of Improvements to IPSASs 2015: issues raised by stakeholders

BC1. Stakeholders indicated that IPSASs referred to non-current assets held for sale and disposal groups inconsistently. The IPSASB concluded that IFRS 5, *Non-current Assets Held for Sale and Discontinued Operations*, may only be appropriate for the public sector in certain circumstances, for the following reasons:

- (a) Sales of assets in the public sector may not be completed within one year because of the levels of approval required. This raises questions about the relevance and consistency of information provided in accordance with IFRS 5. In particular, the IPSASB notes that, under IFRS 5, non-current assets held for sale are not depreciated. The IPSASB has concerns that not depreciating assets for an extended period of time may be inappropriate.
- (b) Many assets in the public sector are disposed of through a transfer or distribution for no or nominal consideration. As IFRS 5 deals with sales at fair value, the measurement and disclosure requirements may not provide relevant information for these transfers. However, the IPSASB recognizes that the measurement and disclosure requirements in IFRS 5 may be appropriate where sales are intended to take place at fair value.
- (c) Many discontinued operations in the public sector are operations that previously provided services at no or nominal cost. As IFRS 5 deals with discontinued operations that were either cash-generating units or a group of cash-generating units prior to disposal or being classified as held for sale, the disclosure requirements may not provide relevant information for public sector discontinued operations. However, the IPSASB recognizes that the disclosure requirements in IFRS 5 may be appropriate where discontinued operations were previously either cash-generating units or one or more groups of cash generating units.

Because the IPSASB had concluded that IFRS 5 would only be appropriate in the public sector in limited circumstances, the IPSASB agreed to remove references in IPSAS to international or national accounting standards dealing with non-current assets held for sale and discontinued operations. The IPSASB had concerns that retaining this reference may result in entities following the requirements of IFRS 5 in circumstances where this may not be appropriate. The IPSASB noted that IPSAS 3, *Accounting Policies, Changes in Accounting Estimates and Errors*, provides guidance on selecting accounting policies for transactions that are not specifically addressed in IPSASs. This guidance would permit entities to adopt an accounting policy that is consistent with IFRS 5 where the entity considers this is appropriate.

Revision of IPSAS 19 as a result of the IPSASB's *The Applicability of IPSASs*, issued in April 2016

BC2. The IPSASB issued *The Applicability of IPSASs* in April 2016. This pronouncement amends references in all IPSASs as follows:

- (a) Removes the standard paragraphs about the applicability of IPSASs to “public sector entities other than GBEs” from the scope section of each Standard;
- (b) Replaces the term “GBE” with the term “commercial public sector entities”, where appropriate; and
- (c) Amends paragraph 10 of the *Preface to International Public Sector Accounting Standards* by providing a positive description of public sector entities for which IPSASs are designed.

The reasons for these changes are set out in the Basis for Conclusions to IPSAS 1.
