credit-adjusted effective interest rate	<p>The rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial asset to the amortised cost of a financial asset that is a purchased or originated credit-impaired financial asset. When calculating the credit-adjusted effective interest rate, an entity shall estimate the expected cash flows by considering all contractual terms of the financial asset (for example, prepayment, extension, call and similar options) and expected credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate (see paragraphs AG156–AG158), transaction costs, and all other premiums or discounts. There is a presumption that the cash flows and the expected life of a group of similar financial instruments can be estimated reliably. However, in those rare cases when it is not possible to reliably estimate the cash flows or the remaining life of a financial instrument (or group of financial instruments), the entity shall use the contractual cash flows over the full contractual term of the financial instrument (or group of financial instruments).</p>	PBE IPSAS 41.9
credit-impaired financial asset	<p>A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired include observable data about the following events:</p> <ul style="list-style-type: none"> (a) Significant financial difficulty of the issuer or the borrower; (b) A breach of contract, such as a default or past due event; (c) The lender(s) of the borrower, for economic or contractual reasons relating to the borrower’s financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; (d) It is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; (e) The disappearance of an active market for that financial asset because of financial difficulties; or (f) The purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses. <p>It may not be possible to identify a single discrete event—instead, the combined effect of several events may have caused financial assets to become credit-impaired.</p>	PBE IPSAS 41.9
credit loss	<p>The difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). An entity shall estimate cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument. There is a presumption that the expected life of a financial instrument can be estimated reliably. However, in those rare cases when it is not possible to reliably estimate the expected life of a financial instrument, the entity shall use the remaining contractual term of the financial instrument.	
credit risk	The risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.	PBE IPSAS 30.8
currency risk	The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.	PBE IPSAS 30.8
current asset	An entity shall classify an asset as a current asset when: <ul style="list-style-type: none"> (a) It expects to realise the asset, or intends to sell or consume it, in its normal operating cycle; (b) It holds the asset primarily for the purpose of trading it; (c) It expects to realise the asset within twelve months after the reporting period; or (d) The asset is cash or a cash equivalent (as defined in PBE IPSAS 2) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. 	PBE IFRS 5.5B.1
current replacement cost	The cost the entity would incur to acquire the asset on the reporting date.	PBE IPSAS 12.9
current service cost	The increase in the present value of the defined benefit obligation resulting from employee service in the current period.	PBE IPSAS 39.8
current tax	The amount of income taxes payable (recoverable) in respect of the taxable profit (tax loss) for a period.	PBE IAS 12.5
date of transition to PBE Standards	The beginning of the earliest period for which an entity presents full comparative information in its first set of financial statements under PBE Standards.	PBE FRS 46.9
date of transition to PBE Standards	The beginning of the earliest period for which an entity presents full comparative information in its first set of financial statements under PBE Standards; or The beginning of the current period for a Tier 2 not-for-profit entity that does not provide full comparative information in its first set of financial statements under PBE Standards.	PBE FRS 47.9
decision-maker	An entity with decision-making rights that is either a principal or an agent for other parties.	PBE IPSAS 35.14
deductible temporary differences	Temporary differences that will result in amounts that are deductible in determining taxable profit (tax loss) of future periods when the carrying amount of the asset or liability is recovered or settled.	PBE IAS 12.5

GLOSSARY OF DEFINED TERMS

Term	Definition	Location
deemed cost	An amount used as a surrogate for cost or depreciated cost at a given date. Subsequent depreciation or amortisation assumes that the entity had initially recognised the asset or liability at the given date and that its cost was equal to the deemed cost.	PBE FRS 46.9 PBE FRS 47.9
deferred tax assets	The amounts of income taxes recoverable in future periods in respect of: (a) Deductible temporary differences; (b) The carryforward of unused tax losses; and (c) The carryforward of unused tax credits.	PBE IAS 12.5
deferred tax liabilities	The amounts of income taxes payable in future periods in respect of taxable temporary differences.	PBE IAS 12.5
deficit or surplus (of defined benefit liability (asset))	The deficit or surplus is: (a) The present value of the defined benefit obligation less (b) The fair value of plan assets (if any).	PBE IPSAS 39.8
defined benefit plans	Post-employment benefit plans other than defined contribution plans.	PBE IPSAS 39.8
defined contribution plans	Post-employment benefit plans under which an entity pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.	PBE IPSAS 39.8
deposit component	A contractual component that is not accounted for as a derivative under PBE IPSAS 28 and would be within the scope of PBE IPSAS 28 if it were a separate instrument.	PBE IFRS4.12.1
deposit premium	The premium charged by the insurer at the inception of a contract under which the final premium depends on conditions prevailing over the contract period and so is not determined until the expiry of that period. Direct insurance contract means an insurance contract that is not a reinsurance contract.	PBE IFRS 4.12.1
depreciable amount	The cost of an asset, or other amount substituted for cost, less its residual value.	PBE IPSAS 17.13
depreciation	The systematic allocation of the depreciable amount of an asset over its useful life.	PBE IPSAS 17.13
derecognition	The removal of a previously recognised financial asset or financial liability from an entity's statement of financial position.	PBE IPSAS 29.10 PBE IPSAS 41.9
derivative	A financial instrument or other contract within the scope of [PBE IPSAS 29] (see paragraphs 2–6) with all three of the following characteristics: (a) Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the “underlying”);	PBE IPSAS 29.10

distributions to owners	Future economic benefits or service potential distributed by the entity to all or some of its owners, either as a return on investment or as a return of investment.	PBE IPSAS 1.7
dividends or similar distributions	Distributions to holders of equity instruments in proportion to their holdings of a particular class of capital.	PBE IPSAS 41.9
economic entity	A controlling entity and its controlled entities.	PBE IPSAS 1.7 PBE IPSAS 35.14
economic life	Either: (a) The period over which an asset is expected to yield economic benefits or service potential to one or more users; or (b) The number of production or similar units expected to be obtained from the asset by one or more users.	PBE IPSAS 13.8
effective interest method	A method of calculating the amortised cost of a financial asset or a financial liability (or group of financial assets or financial liabilities) and of allocating the interest revenue or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, an entity shall estimate cash flows considering all contractual terms of the financial instrument (e.g., prepayment, call and similar options) but shall not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate (see PBE IPSAS 9 <i>Revenue from Exchange Transactions</i>), transaction costs, and all other premiums or discounts. There is a presumption that the cash flows and the expected life of a group of similar financial instruments can be estimated reliably. However, in those rare cases when it is not possible to estimate reliably the cash flows or the expected life of a financial instrument (or group of financial instruments), the entity shall use the contractual cash flows over the full contractual term of the financial instrument (or group of financial instruments).	PBE IPSAS 29.10
effective interest method	The method that is used in the calculation of the amortised cost of a financial asset or a financial liability and in the allocation and recognition of the interest revenue or interest expense in surplus or deficit over the relevant period.	PBE IPSAS 41.9
effective interest rate	The rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.
