

# **Proposed 2025 Amendments to Climate and Assurance Standards**

## **Survey response 101**

### **Company Name**

Turners Automotive group

**Should AP 4, AP 5, AP 7 and AP 8, which relate to the disclosure and assurance of scope 3 GHG emissions, be extended?**

Yes - By four or more years

**Please give a reason for your answer**

We don't see any of the inherent problems being resolved any sooner, esp. Scope 3 GHG Assurance.

**Should AP 2, which relates to anticipated financial impacts, be extended?**

Yes - By four or more years

**Please give a reason for your answer**

We don't see any of the inherent problems being resolved any sooner, this is fraught with inconsistent application and relevance and needs tight alignment across all entities to be meaningful.

**Any other comments**

Thank you for listening.
