

Proposed 2025 Amendments to Climate and Assurance Standards

Survey response 75

Company Name

Preferred ltd

Should AP 4, AP 5, AP 7 and AP 8, which relate to the disclosure and assurance of scope 3 GHG emissions, be extended?

No

Please give a reason for your answer

Make a line in the sand and stick to it. Poor performance by the current Govt return to fossil fuels, stopping EV rebates, and kicking the can down the road on CH4

Should AP 2, which relates to anticipated financial impacts, be extended?

Yes - By one year

Please give a reason for your answer

There may be some leeway to allow better financial modelling but only if outcomes can be improved

Any other comments
